CCRN is pleased to invite you to the first annual “State of the Heart” Symposium. This program has been specifically designed for physicians who have a particular interest in cardiovascular disease. The program will cover the latest CV management guidelines, late-breaking clinical trial results, and will address patient care issues encountered in daily practice. In addition, we will provide a glimpse into the future of CV risk management. CCRN has brought together a stellar faculty that will provide excellent teaching and opportunity for group discussion surrounding real-world implications.

For more information please contact Pamela Hebden at 905-453-8885 or phebden@ccrnm.com

PROGRAM FACULTY

Keynote Speaker - Dr. Paul Ridker, Eugene Braunwald Professor of Medicine, Harvard School of Medicine
